Fourteenth Meeting of the

North British Mathematical Physics Seminar

22 Feburary 2006 at the ICMS, India Street, Edinburgh

Scientific Programme

11:30	Coffee
12:00	**Richard Szabo** (Heriot-Watt) Black Holes, Topological Strings and Phase Transitions
13:00	Lunch
14:00	**Veronika Hubeny** (Durham) Looking beyond horizons via AdS/CFT
15:00	**Alistair Hart** (Edinburgh) Topology and random matrix theory in lattice QCD
16:00	Tea
16:30	**Barry Miller** (York) Conserved Charges of the Principal Chiral Model on a Supergroup
16:30	**Mark Goodsell** (Durham) Intersecting Brane Worlds and One Loop Amplitudes
