

Mini Projects

- Mainly for fun! There is little time and we want you to enjoy sunny Edinburgh so we do not expect much...
- Key initial aim is to scan through the paper associated with your project. Papers can be downloaded from

<https://www.macs.hw.ac.uk/~painter/LMSResearchSchool/>

- During the week, chat together as a group (e.g over lunch) and discuss the work. Guidance sheets will be provided for each project.
- **Friday:** each group gives a very brief 5 minute presentation of their findings.
