A4. Personal Tutors 6
A5. Key Staff Contact Details 6
A6. Significant Dates in the Academic Year 8
A7. Communications 8
PART A: SCHOOL INFORMATION

A1. How to Use This Handbook

This handbook provides you with:
- An overview of your programme, its structure and its courses.
- Contact information for key staff in your programme, subject and academic School.
- Details of support and resources available to you as a Heriot-Watt student.

Take time to look through the information provided, but also use it for reference if you are unsure of anything, if you want to contact someone, or if you want to find out more about any aspect of your studies. This Handbook is not just for your first week or two at University, nor is it something to be read once and discarded, you will find it useful to refer back to its contents in the coming weeks and months. If you can’t find the information you are looking for then you can ask your personal tutor.

All information is correct at the time the Handbook was produced.

A2. Welcome and Introduction

Welcome from the Principal and Vice Chancellor of Heriot-Watt University

I am delighted that you have chosen our unique and innovative University and have entrusted us with your education for the next few years. Heriot-Watt has been at the forefront of pioneering education and future thinking since 1821, and each year, whether it be in league tables or the testimonies of our brilliant students and our supportive staff, we continue to lead the way in world class education.

We are very aware that you are joining us in uncertain times but let me reassure you that Heriot-Watt University continues to rise to these challenges. Our Learning and Teaching Academy has been working tirelessly to create and implement a Responsive Blended Learning (RBL) model, which enhances teaching practices both on campus and at home, ensuring that you will still receive inspiring learning experiences and practical support. Now more than ever, we are thankful for our global OneWatt community of students, colleagues and alumni, who continue to actively take part in our supportive network, which spans five campuses in three countries.

Throughout your studies you will have the opportunity to thrive both personally and academically, and I would encourage you to take advantage of all that our campuses, student societies and global community has to offer you. As a University committed to preparing you for your future, we’re delighted to offer opportunities for students to gain a global perspective, whether at a single campus or abroad. As travel restrictions are eased, our Go Global programme will continue to offer inter-campus transfers and exchanges across our campuses in Dubai, Scotland and Malaysia, allowing you to study, socialise or experience new cultures and places. We encourage you to connect with likeminded individuals across the globe and grasp every opportunity with both hands.

Our graduates are sought-after by global professions and industries all over the world. The very nature of a Heriot-Watt education is one that allows you to benefit from our research-informed approach, underpinned by our rich heritage and values. We’re dedicated to providing you with the confidence and leadership skills to be a global citizen, and the expertise to one day become a leader in your chosen field or career. Together we will help shape tomorrow to deliver benefits for all of society.
We look forward to supporting you as you grow and become a successful graduate of Heriot-Watt University. On behalf of our global OneWatt community, I’d like to take this opportunity to say: welcome to the family.

Professor Richard A. Williams OBE
Principal and Vice-Chancellor

**Welcome from Head of Department Actuarial Mathematics and Statistics**

I am delighted to welcome you as students on behalf of all staff in the Department of Actuarial Mathematics and Statistics at Heriot-Watt University.

The Department of Actuarial Mathematics and Statistics is internationally renowned for teaching and research in these areas, and it was among the first universities in the UK to offer degree programmes in Actuarial Science. I would like to encourage you to explore the opportunities we offer. There are opportunities to spend a year abroad in Canada or Australia or on our campus in Malaysia. There are also opportunities to spend a year on an industrial placement. On your home campus, there are ample opportunities to attend talks and seminars including the annual conference and other events organised by the Students’ Actuarial Society.

Once again we are delighted to welcome you as our students, and I very much hope the academic year ahead will be successful, inspiring, and enjoyable for you.

Prof Damian Clancy

*Head of Department*

**Introduction**

This guide provides a reference to degree programme structures and other departmental information for students on Actuarial Mathematics and Statistics (AMS) degrees. This guide is intended as a summary of AMS Programme Structures, but note that the University Regulations and Programme Structures take precedence in case of any discrepancy between them and the guide.

Information concerning examination timetables, University regulations and other general information can be found on the Academic Registry website at [www.hw.ac.uk/registry](http://www.hw.ac.uk/registry). Further sources of information are the MACS web site at [www.macs.hw.ac.uk/students](http://www.macs.hw.ac.uk/students) and the MACS Organisation section on VISION (see Section A7).
Programmes Offered

The following undergraduate programmes are offered:

- F723 BSc in Actuarial Science
- F712 BSc in Actuarial Science and Diploma in Industrial Training 1
- F706 BSc in Actuarial Science and Diploma in Industrial Training 2 (F706 is no longer open to enrolment).
- F771 BSc in Financial Mathematics
- F713 BSc in Statistical Data Science

The degrees may be awarded at honours or ordinary level. Study for an honours degree usually takes four years, and for an ordinary degree, three years. For the programmes that include industrial training, study lasts an additional year because of the year-long work placement.

All the degrees are designed to make it easy in most cases to transfer from one to another during the first two years. In addition, the Heriot-Watt course scheme is compliant with the Scottish Credit and Qualifications Framework (SCQF). This makes credit transfers between Scottish universities easier.

A3. COVID-19 and Responsive Blended Learning

The COVID-19 pandemic means that we have adapted the way we deliver learning and teaching across our campuses to enable us to continue to offer an inspiring learning experience, whatever pandemic-related restrictions may be in place.

Our approach is called Responsive Blended Learning (RBL).

- **Responsive** to the changing environments our students are living and learning in, to the wellbeing concerns of students and staff, and to the diversity of students’ learning needs at this challenging time.

- **Blended** to combine the very best use of online and on-campus teaching, learning and student support. The exact balance of this blend of online and on-campus learning will flex depending on local conditions and individual student context.

Our Responsive Blended Learning approach means that you will be able to learn, interact and collaborate with your classmates, whether you are on campus or studying at a distance. It will enable you to access materials, work with and learn alongside your class cohort, and build and strengthen friendships, wherever you begin your studies from. This means our response will flex with the local conditions, and with your particular circumstances. It will also allow us to slowly and safely phase the return of students and staff on to our campuses, when conditions allow.

As campuses reopen, there will be increasing opportunities for on-campus teaching activities. Labs, studios and maker-spaces will, when safe to do so, be opened to allow students to engage in practical activities. Tutorials and other class teaching will also resume on campus, when space and safety guidance allows this. Whenever you can return, we will be here to welcome you and support you to adjust to campus life.
As part of the University’s RBL approach, in 2020/21 learning and teaching activities may be recorded for academic purposes. Students will have access to these recordings for use in their studies, but must not download, access or use these recordings for any purpose other than their studies at the University. Equally, students must not copy or share the recordings, in whole or in part, in any way with any other party. New and continuing students will be invited to sign up to these requirements as part of the Student Declaration at the point of enrolment.

You can discuss any issues around your learning or your wellbeing with your personal tutor (see below) and with the University’s support services (see Section C6 below).

**A4. Personal Tutors**

Every student has a member of academic staff allocated to them as a personal tutor who will be a key source of advice, guidance and support during your time at Heriot-Watt. Your personal tutor is your first point of contact if you need advice on any issue, both academic and non-academic, and can refer you to other support services where relevant for non-academic matters. Personal tutors provide a clear point of contact for you throughout your degree.

You will normally retain the same personal tutor as long as you are registered on an AMS degree. The personal tutor is your main academic link with the University. Under certain circumstances, with the permission of the Head of Department, it may be possible to change your personal tutor.

While social distancing is in operation, or if you are off campus, you can still arrange to meet your personal tutor remotely and contact them by email.

Details on who your personal tutor is can be obtained through Student Self Service via the Student Portal. More details about personal tutoring can be found [here](#).

**A5. Key Staff Contact Details**

Professor Beatrice Pelloni is the Head of the School of Mathematical and Computer Sciences, and Professor Damian Clancy is the Head of the Department of Actuarial Mathematics and Statistics. They are supported by year level Year Co-ordinators and an experienced team of academic staff.

**Year Co-ordinator 2020/21**

Academic Staff

Students are encouraged to contact directly any member of staff whose courses they have taken if further help or advice is needed. The AMS academic staff for 2020/21 are listed below. E-mail addresses for staff consist of the initials and surname followed by @hw.ac.uk (e.g. A.J.G.Cairns@hw.ac.uk). To find office details and telephone extensions (prefix by 451 if calling from outside) please use the People Finder tool: https://www.hw.ac.uk/uk/about/contact/people-finder.htm. Staff can also be contacted through the MACS School Office (EM 1.25, macs-schooloffice@hw.ac.uk).

Administrative Staff

The Programmes are supported through the School Office. Staff in the office can help with administrative information and procedures such as registration issues, changes of address and many other issues.

Location: EM1.25
Phone: 0131 451 3324
Email: macs-schooloffice@hw.ac.uk

Updating personal information, such as a change of address, is done through the Student Self Service portal: (http://www.hw.ac.uk/selfservice).

</table>

Please refer to the University’s websites http://www.hw.ac.uk/ and http://www.hw.ac.uk/edinburgh.htm which contain detailed information about Heriot-Watt University and the Edinburgh Campus.

A7. Communications

Contact Details

It is essential that the School and the University are kept informed of any changes to students’ contact details, particularly term-time and home addresses. It is the responsibility of the student to ensure that the University has the most up to date contact information.
Please inform the University of any changes to personal details to ensure that we hold up-to-date records.

If you wish to change your address, please login to Student Self Service (http://www.hw.ac.uk/selfservice).

If you require your name to be changed, please inform the Student Service Centre and provide the appropriate paperwork.

Please note that letters from the University are automatically sent to students’ term addresses as recorded on the student record system, so it is particularly important to ensure address details are kept up to date.

**E-mail**

New students will be issued with instructions on how to set up their e-mail account during enrolment. Returning students will have continued access to their e-mail.

Please note that students’ Heriot-Watt e-mail addresses are used by academic and administrative staff to send important information throughout the year.

Staff will only use official Heriot Watt e-mail addresses when writing to their students.

**Students are expected to check your e-mail regularly (at least once a day) and to ensure that your in-box is regularly cleared.**

More information regarding Heriot-Watt’s I.T. facilities and regulations can be found at: http://www.hw.ac.uk/is/.

**VISION**

Heriot Watt University has a Virtual Learning Environment (VLE) called VISION. Each of your courses will have a space on the VLE and your lecturers will use this space to post class materials, such as reading lists, details of assignments or announcements of revision sessions. You may also be required to use VISION to upload your work through Turnitin, a plagiarism detection programme which is in regular use by the Schools. Many courses will also include online assessment which is accessed and submitted through VISION.

Other important information, such as the AMS Code of Practice, can be found in the MACS Organisation section of VISION.

Once you have registered and have your username and password, you can access VISION here: http://vision.hw.ac.uk/.

**Social Media and Personal Channels**

Students should communicate with academic and administrative staff via approved Heriot-Watt University internal channels (e.g. official Heriot-Watt email and telephone, Skype for Business, MS Teams, Collaborate Ultra and Vision). Students should NOT use personal social media profile (e.g. Facebook, Instagram, Twitter, etc.) or other personal channels for any communications with staff (e.g. personal mobile use for calls, text / WhatsApp, personal emails, etc.).
Mail

Mail (internal and external) for students is normally delivered to pigeon-holes inside the MACS office (EM1.25). When in campus, please check yours regularly.

Lockers

Lockers are allocated for the duration of each academic year on a first-come, first-served basis. Keys for lockers in the EM Building are normally available from Mr I. A. McCrone (EM1.33) for a deposit of £10.

Computing Facilities

All AMS students are issued with accounts on the University Desktop Service. For details of computer labs and availability see [www.hw.ac.uk/schools/mathematical-computer-sciences/about/facilities.htm](http://www.hw.ac.uk/schools/mathematical-computer-sciences/about/facilities.htm). Students are expected to use the computer facilities in an appropriate and considerate way. Abuse of the facilities is subject to various disciplinary measures, ranging from a ban on access to the facilities to, in extreme and flagrant cases, expulsion from the University. Examples of abuse include monopolising a terminal for non-academic related purposes, running excessively long or inappropriate print jobs, and displaying, circulating or printing offensive material on or from the Internet. Computer games and relay chat are specifically forbidden. Further information on policy regarding the abuse of computer facilities is available from Information Technology (IT) [www.hw.ac.uk/documents/it-communications-facilities-acceptable-use.pdf](http://www.hw.ac.uk/documents/it-communications-facilities-acceptable-use.pdf).

Changes to Registration

If you wish to change your course, you can do this [online](http://www.hw.ac.uk/uk/students/studies/record/change-course-programme.htm) after you complete online enrolment up until the end of the second week of the semester. Please see [https://www.hw.ac.uk/uk/students/studies/record/change-course-programme.htm](https://www.hw.ac.uk/uk/students/studies/record/change-course-programme.htm).

Staff-Student Committee

The Staff-Student Committee provides an additional channel of communication between staff and students within the AMS department. It consists of the School Officer, the Year Co-ordinators, the President of the Students' Actuarial Society and two student representatives from each of the four undergraduate years. Student representatives are elected annually.

The committee meets once or twice each semester. One of its major functions is to consider any concerns about current lecture courses, including teaching quality, and to take appropriate action for their resolution. Other matters of interest, such as the provision of computing facilities or the timing of lectures, may be discussed. Minutes of the meetings are available on VISION.
Course Evaluation

At the end of each course you take you will be asked to complete a course evaluation questionnaire, normally through VISION. Your views are important to us and the information gathered from these evaluations is analysed by the University and the resulting information is then fed into an annual review of the programme. Feedback will be provided through VISION as to how your views have been taken on board.

Feedback

Feedback is a two-way process. Feedback is provided to students in a variety of ways in order to help you to reflect on and to evaluate your progress and to assist you to take steps to improve before the next relevant assessment. For most courses, students can expect feedback on assessed coursework within 15 working (i.e. teaching) days of the coursework due date. Feedback is sought from students via Student-Staff Liaison Committees and various surveys so that the School can continue to enhance the student learning experience. Your feedback is valued by the School, so please be sure to provide feedback whenever it is sought.

Regular Meetings

It is important that you see your personal tutor regularly. These meetings are particularly important for monitoring academic progress in the first and second years. All students must see their personal tutor at the start of Semester 1 and early in Semester 2. In addition, first and second year students must see their personal tutor in week 7 of Semester 1 and week 8 of Semester 2 and third year direct entrants must see their personal tutor in week 7 of Semester 1. Staff often arrange meetings via e-mail. Remember to check your e-mail regularly. It is your responsibility to find out what arrangements have been made.

A8. Help and Advice

Every year a few students run into serious personal difficulties (e.g. family illness, accommodation, financial, etc.). As well as being generally supportive, your personal tutor can help in a number of practical ways. For example, if you are prevented from completing project work or sitting exams, your personal tutor can help with the Mitigating Circumstances process. However, you must notify your personal tutor as soon as possible, or there is very little that can be done. This is particularly important if the difficulty affects your sitting Level 9 or 10 honours papers, as once taken there are no resits allowed for honours papers. Also, it is essential to submit a Mitigating Circumstances Form (see **Notification of Mitigating Circumstances** in Section A9).

With other problems, your personal tutor can put you in touch with the appropriate University support service (Chaplaincy, Medical Centre, Student Wellbeing Services or Student Union). Personal tutors are there to help; do not hesitate to contact yours if you need help.

In certain situations it may be in your best interests to suspend your studies temporarily. It sometimes helps to take time out to deal with issues that are stopping you studying effectively – this might be a health or personal issue – and return to University at an agreed date. A **Temporary Suspension of Studies (TSS)** is when a student stops studying at the university for an extended period of time (usually no longer than one academic year), and then returns to resume their studies.
For further information see https://www.hw.ac.uk/students/studies/leaving/temporary-suspension-studies.htm.

If you are considering applying for a suspension of studies you should contact your personal tutor or Year Co-ordinator to discuss this with them.

**A9. Attendance**

In order to achieve course and programme learning outcomes, students are expected to attend, physically or virtually, all scheduled course learning sessions.

Students who fail to satisfy course attendance requirements may, after due warning, be disallowed from presenting themselves for examination in the course (see https://www.hw.ac.uk/students/doc/compulsorywithdrawal.pdf).

**Mitigating Circumstances**

Should you have to miss a timetabled session due to ill health or other legitimate reasons, or there are any circumstances which could adversely affect your examination performance, it is very important that you notify your personal tutor as soon as possible.

You should also submit an application for consideration of Mitigating Circumstances (see https://www.hw.ac.uk/students/studies/examinations/mitigating-circumstances.htm), together with any supporting documents (e.g. medical certificates) to the MACS School Office (EM1.25, macs-schooloffice@hw.ac.uk).

The Examiners will always take such circumstances into account where appropriate, but the later the notification, the less scope there is to do so. In particular, notification should be as soon as possible after the mitigating circumstances have arisen, and certainly no later than the Examiners Meeting (usually at the end of the assessment period, or mid-August in the case of re-sits). Late notification will mean that either no account can be taken, or a formal appeal will need to be made. In the latter case, final year students will not be permitted to graduate until these procedures have been completed. For further details, see the University Regulations.

**A10. Examinations**

It is the student’s responsibility to check all relevant examination timetables (including resits) on the Registry webpage https://www.hw.ac.uk/services/academic-registry.htm. Should you be required to resit any exams, you must be available to take them. Therefore do not book holidays or take on any other commitments during the resit diet. Students who are taking face-to-face exams are normally expected to take the examination at the campus at which they are studying. Resits can only be taken at an overseas location in exceptional circumstances.

Any basic scientific calculator other than graphics calculators, programmable calculators, or those with text storage or retrievable facilities may be used in examinations. (Calculators are not provided.). Unless there are special circumstances, students are not allowed to use translation dictionaries in examinations.

Students are not allowed to have mobile phones or other communication devices on or about their persons during examinations. Phones may be left at the front of the examination room but they must be switched off.
Cheating in an exam or other assessed work is considered to be a very serious offence.

Students should be aware that reading exam papers or communicating with other candidates prior to the start of an exam, or taking unauthorised material into an exam (even if you don’t use it), is considered to be an attempt to cheat. **Do not take any material into the exam hall with you – put it in your bag or in the bin.**

If a student is found cheating in an exam the Student Discipline policy will apply – see [https://www.hw.ac.uk/students/doc/discguidelines.pdf](https://www.hw.ac.uk/students/doc/discguidelines.pdf).

**Coursework and continuous assessment**

As well as end of semester examinations, most courses on the AMS degree programmes involve some element of coursework or continuous assessment such as midterm tests. Students will be informed by the course lecturer of the important dates for tests and project submission and must ensure that they attend / submit at these times. These dates are fixed and cannot be altered for individual students. In addition, the year co-ordinators will produce a coursework calendar for each semester, which will be posted to VISION, containing all the coursework deadlines for that semester.

If you are unexpectedly unable to attend or submit due to circumstances beyond your control you should contact the course lecturer and your personal tutor as soon as possible, as well as submit an application for consideration of Mitigating Circumstances to the School Office (see Section A9 for more detail).

**Submission of Coursework Policy**

The University recognises that, on occasion, students may be unable to submit coursework and dissertations by the submission date. As such, the University has agreed a policy which states:

- No individual extensions are permitted under any circumstances (unless course coordinators decide to give an extension to an entire class).
- Standard 30% deduction from the mark awarded (maximum of five working days);

In the case where you submit coursework up to five working days late and you have valid mitigating circumstances, the mitigating circumstances policy will apply and appropriate mitigation will be applied.

Formative feedback will be provided on all coursework submitted up to five working days late. Any coursework submitted after five working days of the set submission date shall be automatically awarded a no grade with no formative feedback provided.

There will be no extensions granted to coursework (this includes undergraduate and postgraduate taught dissertations).

A link to the policy can be found here: [https://www.hw.ac.uk/services/docs/learning-teaching/policies/submissionofcoursework-policy.pdf](https://www.hw.ac.uk/services/docs/learning-teaching/policies/submissionofcoursework-policy.pdf).
PLAGIARISM, COLLUSION and CHEATING

Cheating in examinations and coursework, plagiarism (i.e., the presentation of another person’s ideas or work as one’s own), and collusion (i.e., the presentation of work produced collectively as individual effort), are very serious offences and are dealt with severely. They carry a range of penalties up to and including expulsion from the University. Students are responsible for familiarising themselves with the University policy on these matters.

The University website contains detailed explanation of what is meant by plagiarism with examples and consequences, see https://www.hw.ac.uk/students/studies/examinations/plagiarism.htm as well as Appendix A of this Guide, and Regulations 9 and 50 on the Registry’s website http://www1.hw.ac.uk/ordinances.

Your course leader will always be very clear about the extent to which you can collaborate and share ideas with your classmates. It is never acceptable to share your electronic files, your reports (as hard copy or in electronic form), or your computer code with anyone else.

A11. Graduate Attributes

As a student of Heriot-Watt you are part of a global community. You will meet new people, discover new interests, develop your life skills and enhance your employability and career prospects. The University will provide you with the opportunity to develop skills, qualities and academic abilities during your time as a student. These are known as the Four Heriot Watt Graduate Attributes: Specialist, Creative, Global and Professional.

These Graduate Attributes can help you shape your experiences while studying and to present your skills and qualities effectively to employers. For more information see https://www.hw.ac.uk/services/docs/academic-registry/gradattributes-visual.pdf.

Professional Development & Careers Advice

Professional development planning (PDP) is incorporated in all four years of the AMS degrees. This is a structured process designed to help students reflect upon their own learning, performance and achievements. One of its main purposes is to support students in the planning of their professional, education and career development, keeping the University’s Graduate Attributes in mind.

In addition to taking a PDP course in 1st year, students will periodically attend seminars on developing these skills, given by, for example, prospective employers. In later years there will be opportunities to develop presentation and group working skills. Students are encouraged to take every opportunity to help develop their own skills.

Career guidance is available through the University’s Careers Advisory Service, which gives a number of presentations on topics related to careers. Students are encouraged to contact Lindsay Wilson there for advice.

Exchange opportunities

There are two exchange agreements which give AMS students the opportunity to study abroad, at either the University of Melbourne (Australia) or the University of Waterloo (Canada). To be eligible, students will have to be consistently in the top 20% of the class. For further
information, see the link in VISION, under the AMS Undergraduate Degree Programme section within the MACS Organisation section. Note that the Institute and Faculty of Actuaries accreditation policy does not apply to exchange programmes: exemptions will be determined on a subject-by-subject basis (see Section B4).

Students on the Actuarial Science degree also have the opportunity to transfer to the University’s Malaysian campus. Short term transfers are available, for one or two semesters in Years 2 or 3 (and then return to Edinburgh), or students can permanently transfer to Malaysia in any of Years 2, 3 or 4. Further information about Inter-Campus Transfers is available on the Go Global site: https://www.hw.ac.uk/student-life/campus-life/go-global.htm.

Diploma in Industrial Training / Industrial Placements

The Department encourages all students to undertake a year-long actuarial or financial services-based paid work placement during their studies. This can be done through the Diploma in Industrial Training (for eligible BSc (Hons) Actuarial Science students only) or by temporarily suspending your studies. More information about the Diploma in Industrial Training can be found on the School VISION website, within the AMS Undergraduate Degree Programmes section within the MACS Organisation section.

In all cases the student is responsible for securing a work placement. The University's Careers Advisory Service can advise anyone interested on how to go about researching and applying for a placement. You are strongly advised to contact the Careers Advisory Service for help on writing CVs, online tests and assessment centres.

A12. University Prizes and Bursaries

A number of prizes, for overall performance in each year, are available to AMS Students.

Year 1
University Prize
Standard Life Prize (may be shared)

Year 2
University Prize
Worshipful Company of Actuaries Prize (may be shared)

Year 3
University Prize
Scottish Widows Prize (may be shared)
Longevitas Prize for Survival Models

Year 4
Watt Club Medal for the Best Student
IMA Prize
Roger Gray Memorial Prize in Statistics

The Worshipful Company of Actuaries Charitable Trust offers a number of bursaries each year to final year honours students in Actuarial Science. Applicants are required to demonstrate need and reasonable progress on their degree, and should be seriously considering a career in the actuarial profession. Third year students who wish to apply should contact Peter Ridges at the beginning of second semester.
A13. Code of Practice

What you can expect from AMS Staff
Teaching is one of the most important duties for AMS staff. Although academic staff have research and administrative duties which also need our attention, we aim to provide:

- Commitment to helping you learn.
- Politeness and respect.
- Availability for meetings, either during scheduled office hours or at pre-arranged times.
- Timely feedback and marks for coursework.
- A prompt response from your personal tutor.
- A timely reply to general email questions.
- An opportunity to see your exam script to see where you went wrong, either at scheduled feedback sessions or by applying at the School Office to see your script. You can also make an appointment with the lecturer to get further advice on how to improve your work.

Sometimes staff members are away on University business and won’t be able to respond as quickly as normal. If this happens, they will tell you about it (e.g. on an "out-of-office" message) and will advise you who to contact instead.

If you have a problem…

For personal problems or any other problem that is interfering with your studying, please discuss it with your personal tutor. We are here to help. You can also discuss any personal problems with the staff in the Student Support Office.

For problems about a course, talk to the lecturer first. If that doesn't help, you can raise the matter with your Class Rep. or the Year Co-ordinator.

What staff can expect from AMS students
Most importantly, we expect you to take charge of your own learning. This is your degree - to get the most of your time at the University you need to be independent and proactive. We understand that you may have other demands on your time, but as full-time students, your studies should come first. In addition, we expect:

- Commitment to your learning.
- Politeness and respect, including switching off phones and other social media during classes.
- Attendance, physical or virtual, at all scheduled learning sessions and tests.
- Preparation for classes as specified by your lecturers, such as studying lecture notes, working on tutorial questions and participating in online activities. For every hour of timetabled class, we expect you to spend 2-3 hours in private study.
• Persistance. Some topics and problems in mathematics are challenging and we expect you to make a sustained effort to master difficult topics. We are there to help you if you get stuck.

• Basic organisational skills, including coming to classes with pen and paper ready to take notes or with equipment for electronic note-taking, and using a calendar so that you don't forget deadlines and appointments.

• Attendance at any scheduled meeting with a staff member. If you can't make a scheduled meeting with a staff member, please notify them in advance rather than just not turning up.

• Checking your email daily and logging into VISION at least every other day.

• A timely reply to email from staff.

• Willingness to learn from feedback on tutorial work, projects and exams, and an attempt to improve your work based on that feedback.

• Finally, we encourage you to keep yourself informed about new and interesting developments in your discipline (beyond what you learn in your courses). The department is full of experts in a wide range of areas who are happy to chat with you about topics of current interest. Seek them out!
PART B: PROGRAMME INFORMATION

B1. Structure

The academic year is divided into two semesters. Each semester consists of 12 weeks teaching followed by an assessment period (2 weeks in Semester 1, and 4 weeks in Semester 2). Students must register for four courses each semester. These courses are listed in the relevant tables below. For course descriptors and a detailed course guide please follow this link:

Actuarial Science
https://www.hw.ac.uk/uk/study/undergraduate/actuarial-science.htm#programme-content

Actuarial Science and Diploma in Industrial Training
https://www.hw.ac.uk/uk/study/undergraduate/actuarial-science-and-diploma-in-industrial-training.htm#programme-content

Financial Mathematics
https://www.hw.ac.uk/uk/study/undergraduate/financial-mathematics.htm#programme-content

Statistical Data Science
https://www.hw.ac.uk/uk/study/undergraduate/statistical-data-science.htm#programme-content

Each course has a five-character code; the first two characters indicate the department, the third is the level (0, 1 indicate Levels 10, 11 respectively). Usually, but not always, Level 7 courses are taken in the 1st year, Level 8 in the 2nd year and Level 9 and 10/11 courses in the 3rd and 4th years respectively.

A course is regarded as requiring 150 hours of student effort, and is worth 15 SCQF credits.

B2. Assessment

Each course is awarded a grade in the range A-F: grade E is the minimum required for the award of credits, but at least a grade D is needed for progression to subsequent courses. Other grades are interpreted as follows:

A - excellent, B - very good, C – good, F - inadequate. (See University Regulations for details).

The minimum mark needed to gain a grade D is usually 40%. The correspondence between marks and other grades varies from course to course, but is approximately as follows: grade A, 70% or over; grade B, 60-69%; grade C, 50-59%; grade D, 40-49%.

Level 7 and 8 Courses

Course assessment is generally based on either coursework, an exam at the end of the semester, or a combination of both. Details for individual courses can be found in the relevant course description. If you do not obtain a grade D (or higher) in a Level 7 or 8 course at the first attempt, you are entitled to one further attempt.

Level 9, 10 and 11 Courses

Assessment of Level 9, 10 and 11 courses is generally as for Level 7 and 8. However, in some cases, the exam for a first semester course may take place at the end of the second semester.
Also, note that some pairs of courses are synoptically linked; that is, both courses are assigned the same grade, based on the average mark for the individual courses. Details are in the relevant course description. All Level 9, 10 and 11 course marks count towards the final degree classification (see also Section B3.4 Fourth Year).

B3. Results and Progress Decisions

The University operates a Heriot-Watt Assessment and Progression System (HAPS) which specifies minimum progression requirements. Schools have the option to apply progression requirements above the minimum University requirement, which are approved by the Studies Committees. Students should refer to the programme specific information on progression requirements. This information is detailed below.

The Progression Board meets at the end of the academic year to decide which students will be allowed to proceed to the next year of their degree programme. The Year Co-ordinators will write to inform you if you must resit any exams. The Registry also makes the results available online.

AS-Actuarial Science      FM-Financial Mathematics    SD- Statistical Data Science

Degree Requirements - Actuarial Science
Three mandatory and one optional course each semester. Any level 7 course may be chosen as an option, subject to timetable constraints and the approval of the Year Co-ordinator.

Students should note that the options C37FF and C27IE can lead to exemptions from the CB1 and CB2 examinations of the Institute and Faculty of Actuaries (see Section 4 -Actuarial Exemptions).

Degree Requirements - Financial Mathematics
Eight mandatory courses.

Degree Requirements - Statistical Data Science
Three mandatory and one optional course each semester. Any level 7 course may be chosen as an option, subject to timetable constraints and the approval of the Year Co-ordinator.
Proceeding to 2nd Year

If you obtain a grade D or better in all eight courses at the first attempt, you may proceed to the 2nd year of any AMS degree for which you have fulfilled the prerequisites. Otherwise, progress is determined by the progression board on a case-by-case basis, and you may be required to resit some exams in August.

If you do not obtain D’s at this second attempt, you may be required to transfer to another degree programme for which you have enough credit points (e.g. Combined Studies, Mathematics), or withdraw from the University. You will be advised of your options.

AS-Actuarial Science   FM-Financial Mathematics   SD- Statistical Data Science

Degree Requirements for Actuarial Science, Financial Mathematics and Statistical Data Science

Eight mandatory courses, plus one optional course in Semester 2.

Direct entrant AS students should note that C37FF can lead to exemption from the CB1
examination of the Institute and Faculty of Actuaries (see Section B.4 - Actuarial Exemptions).

Direct entrant FM students must take C37FF to fulfill degree requirements.

SM students may choose any Level 7 or 8 course as an option, subject to timetable constraints and the approval of the Year Co-ordinator.

**Proceeding to 3rd Year**

If you obtain a grade D or better in all eight courses at the first you will be allowed to proceed to the 3rd year of any AMS degree for which you have fulfilled the prerequisites.

Otherwise, you will be required to resit some exams in August. If you do not obtain D or better at this second attempt, you may be required to transfer to another degree programme for which you have enough credit points (e.g. Combined Studies, Mathematics), or withdraw from the University. You will be advised of your options.

</tr>
</tbody>
</table>
Degree Requirements - Actuarial Science

Eight mandatory courses.

Degree Requirements - Financial Mathematics

Three mandatory and one optional course each semester. Direct entrant FM students must take C27IE to fulfil degree requirements.

Degree Requirements - Statistical Data Science

Three mandatory and one optional course each semester. SM students may choose any Level 7, 8 or 9 course as an option, subject to timetable constraints and the approval of the Year Co-ordinator. However, note that only Level 9 and 10 courses count towards the final degree assessment (see Final Degree Assessment in Section B3.4).

Synoptic Links (see also Section B2 – Assessment)

The following pairs of courses are synoptically linked:

F79MA and F79MB,
F79SP and F79SU (not FM degree),
F79PA and F79DF (not SD degree),
F70LA and F70LB.

Proceeding to 4th Year

Students who obtain a grade D or better in all eight courses, may be allowed to proceed to the 4th year.

If you obtain a grade D or better in at least six courses and have an average mark of at least 40%, you may be permitted, at the discretion of the examiners, to proceed to the 4th year of an AMS degree. In these cases you will be advised by the examiners of your options, and may be required to resit some papers in August, to satisfy the prerequisites for the 4th year courses.

However, note that otherwise, no resit is allowed for an Honours paper, and in all cases, it is the marks obtained at the first attempt that form part of the Final Degree Assessment (see §B3.4).
Ordinary Degrees

A candidate who obtains a grade D or better in at least four Level 9 courses and a total of at least 360 credits may be awarded the ordinary degree of B.Sc.

</tbody>
</table>
### Degree Requirements - Actuarial Science
At least three optional courses plus at most one elective course each semester. Students must take both F70PE and F70LP, or neither.

Direct entrants to AS may take C27IE and/or C37FF to obtain exemption from the CB2 and/or CB1 examinations of the Institute and Faculty of Actuaries.

Direct entrants to 3rd year AS may take F71AB to obtain partial exemption from the CM1 examination of the Institute and Faculty of Actuaries (see Section B4).

### Degree Requirements - Financial Mathematics
One mandatory course and three optional courses each semester. At least four option courses must be at Level 10 or above.

### Degree Requirements - Statistical Data Science
Two mandatory courses plus at least one optional course and at most one elective each semester.

Students transferring to the SM degree from one of the other AMS degrees must take F79PS and F79BI (if not already taken).

### Synoptic Links (see also Section B2 – Assessment)

The following pairs of courses are synoptically linked:

- F70DA and F70DB,
- F70PE and F70LP.

### Final Degree Assessment

The Examiners take into account all course marks at Level 9 and above in deciding the class of Honours: the final mark is the average of those marks (note that Level 7 and 8 course marks are not included). In broad terms, an average mark of over 70% for first class honours, 60% - 70% for upper second class honours, 50% - 60% for lower second class honours, and 40% - 50% for third class honours, would be required, subject to the agreement of the Examiners.

Note that 480 credits are required for the award of an honours degree.
In borderline cases, a positive view may be taken of an improving performance from third to fourth year.

**B4. ACTUARIAL EXEMPTIONS**

**B4.1 Introduction**

The Actuarial Science degree has been accredited by the Institute and Faculty of Actuaries (IFoA), which means that students can obtain exemption from some of the subjects in the IFoA's examination system. There are two routes to gaining exemptions, see B4.1.1 and B4.1.2.

Exemptions are awarded by the IFoA based on the information provided to them by Heriot-Watt. They are not awarded by Heriot-Watt. The guidance we provide to students regarding exemptions in student guides and elsewhere is our understanding of how the IFoA normally expects to determine exemptions. However, the IFoA and the Independent Examiners appointed by the IFoA retain discretion regarding exemptions. Normally what that means in practice is that the score required for individual exemptions (see B4.1.2) varies from year-to-year. But we cannot guarantee any aspect of the exemptions process.

**B4.1.1 Accreditation**

Students graduating with a good upper second class degree (normally an overall average of at least 65%), and who have passed all relevant courses, will generally be eligible for exemption from all Core subjects covered in their degree.

This is often called the “block exemption”.

**B4.1.2 Individual Exemptions**

Students who do not attain the accreditation threshold as above will be considered for exemption from individual subjects as described below. The exemption standard for each subject will be reviewed each year by the profession's Independent Examiners and may vary from year to year.

Note that the accreditation policy does not cover exchange arrangements; in this case, all exemptions will be recommended on a subject-by-subject basis, taking into account performance at Heriot-Watt and the exchange university.

**B4.2 Core Principles Stage**

Exemptions will normally be awarded under the IFoA Curriculum 2019 system (CM1, CM2, CS1, CS2, CB1, CB2) not the old IFoA CT system. The correspondence between the two systems is shown below.

We expect exemptions to be based on performance in university examinations as set out in the following tables, but note the comments above regarding IFoA discretion. These are not guaranteed to be the final mappings. The exemption mapping depends on when you joined stage 2 of the degree, since courses were updated in 2019-20. The numbers in each table represent the weighting given to each subject in each individual exemption. So, for example, we would expect eligibility for exemption from CM2 to be based on the average of F79PA, F70CF and F79DF, ie one-third (0.33) each.
### Students who joined **Stage 2** in 2018-19 or earlier
*(Stage 2 is year 2 in Edinburgh and year 1 in Malaysia)*

</tr>
</tbody>
</table>

(The difference between these tables is the weightings for CS1.)
For 3rd year direct entrants, an exception is for CM1, where the calculation is based on F71AB (weighted ½), F70LA (weighted ¼) and F70LB (weighted ¼). These students can only get CS1 by block exemption as described in B4.1.1.

Note that from 2021-22 onwards, F78AA will change to a half course (i.e., 7.5 credits not 15 credits) and F78AB will be a full course. As such, it is possible that the weightings for CM1 may change for students sitting F78AA/B in 2021-22 or later.

For Diploma in Industrial Training students, and exchange students, the CM2 exemption is usually achieved using a combination of F79PA and postgraduate course F71AJ (Financial Economics 2).

The IFoA assesses CB3 (Business Awareness) through an online test and does not grant exemption from this subject on the basis of university studies.

B4.2.1 Covid-19 adjustments

Where students were given a “P” grade in respect of courses for which an exam was cancelled in April or May 2020, the following adjustments will be made:

- There will not be any additional examinations required to obtain exemptions in the following cases:
  - F70LB: Normally, F70LB would be one quarter of the CM1 individual exemption. For students whose exam has been cancelled, the F70LB weighting will be reduced to reflect coursework only.
  - F79SU: Normally, F79SU would be one quarter of the CS2 individual exemption. For students whose exam has been cancelled, the F79SU weighting will be reduced to reflect coursework only.
  - F79DF: Normally, F79DF would be one third of the CM2 individual exemption. For students whose exam has been cancelled, the F79DF weighting will be reduced to reflect coursework only.
  - F78PB: Normally, F78PB would be one quarter of the CS1 individual exemption. For students whose exam has been cancelled, the F78PB weighting will be reduced to reflect summative coursework only. Formative coursework will not be included.
  - F78AB: Normally, F78AB would be one quarter of the CM1 individual exemption. For students whose exam has been cancelled, the F78AB weighting will be reduced to reflect summative coursework only. Formative coursework will not be included.

- Additional exams for exemptions in August 2020 in the subjects C37FF and F70RT and F70TS. These exams are for exemption purposes only and will not affect your degree average or eligibility for block exemption.

B4.3 Later Stages of the Professional Syllabus

The later parts of the professional syllabus are divided into three stages: Core Practices, Specialist Principles, and Specialist Advanced. To qualify as a Fellow it is also necessary to fulfil the profession’s Personal and Professional Development (work experience) requirements and online professional skills courses.

The profession recommends that UK-based students taking a Specialist Advanced paper also take the corresponding UK Practice Module. UK Practice Modules are not required to qualify as a Fellow, but are required in order to practise in the UK in certain reserved roles.
No exemptions are available from the undergraduate course for the later stages of the professional syllabus, although some courses are relevant, as indicated in the brackets. Graduates who proceed to the MSc in Actuarial Management may obtain exemptions from later stages.

Core Practices Stage

Subject CP1 Actuarial Practice
Subject CP2 Modelling Practice
Subject CP3 Communications Practice

Specialist Principles Stage
Students choose two subjects.
Subject SP1 Health and Care

Subject SP2 Life Insurance (F70LP)
Subject SP4 Pensions and Other Benefits (F70PE)
Subject SP5 Investment and Finance
Subject SP6 Financial Derivatives (F70CF, F79DF)
Subject SP7 General Insurance: Reserving and Capital Modelling (F70RT)
Subject SP8 General Insurance: Pricing (F70RT)
Subject SP9 Enterprise Risk Management (F71RM)

It is also possible to pass one of two subjects from the Specialist Principles stage by writing a Master’s thesis in an actuarially relevant subject (Subject SP0).

Specialist Advanced Stage
Students choose one subject.

Subject SA1 Health and Care

Subject SA2 Life Insurance (F70LP)
Subject SA3 General Insurance
Subject SA4 Pensions and Other Benefits (F70PE)
Subject SA7 Investment and Finance

It is also possible to pass the Specialist Advanced stage by writing a research dissertation (Subject SA0).
B4.4 General Information

Some general points to note about the exemption system are:

- The University cannot grant exemptions, the Independent Examiner appointed by the IFoA makes recommendations to the IFoA. Usually the recommendations are accepted.

- Decisions regarding recommendations for exemptions are generally made on the basis of the student's performance at the first sitting of the relevant University exam. Resits granted as a first attempt under University rules, e.g., because of medical or other mitigating circumstances, are counted as a first attempt for exemption purposes also. A resit that does not count as a first attempt under University rules but which is necessary for the purposes of progression or graduation may be counted for exemption purposes but the maximum mark that can be used for exemption purposes is the pass mark (40%). Any other resit is not normally counted for exemption purposes, i.e., the mark is used for exemptions is the mark achieved on the first attempt.

- Decisions on a particular exemption are made at a meeting of staff and an independent examiner held at the end of the academic year in which the relevant information becomes available, following which students are informed of these decisions. However, the recommendations are not sent to the IFoA until the end of the academic year in which the student graduates. Graduating students will be issued with a letter confirming the recommendations, and advising on how to claim them upon joining the IFoA as a student member.

- The IFoA will not grant any exemptions (or confirm that any will be granted) until a student has joined the profession, at which time you should complete an Exemptions Application Form, available from the IFoA. State clearly on the form that you are a graduate of the AMS Department at Heriot-Watt University; there will then be no need to supply details of syllabi or exam papers. Note there is a fee payable to the profession for each exemption granted.

- There are frequent discussions between the AMS department and the IFoA about the rules and practices concerning exemptions. The above notes reflect the current position but it is possible that changes may occur without prior notice.

Further Information

Further information about the IFoA’s Education strategy can be found on their website (www.actuaries.org.uk).

B4.6 Exemption FAQs

B4.6.1 What happens regarding the individual exemptions if I don’t pass a course that contributes to that exemption?

You must have attempted all the courses that contribute to the relevant exemption. For example, to be recommended for exemption from CS2 you must have attempted all four of F79SP, F79SU, F79TS, F70RT. Your weighted average for that exemption subject must also be at least the level set each year by the independent examiners. The required average is often around 60%, but it can vary and is not known until the end of the year.
However, you do not need to have passed each one of F79SP, F79SU, F70TS, F70RT individually so long as your weighted average is sufficient. So if the required average was 60% and you scored 70%, 70%, 85%, 35% in F79SP, F79SU, F70TS, F70RT then your average for CS2 exemption would be 65% and your score in F70RT would not be expected to prevent you from receiving an exemption from CS2.

See also the information regarding resits at B4.4.

4.6.2 What subjects is the accreditation average (used for block exemption) based on?

For students who joined stage 2 (i.e., year 2 in Edinburgh, year 1 Malaysia) in 2018-19 or earlier we expect the accreditation average to be based on the same subjects as the average which is used to determine your degree classification. So it includes level 9, 10 and 11 courses but not level 8 courses (e.g., F78AA).
PART C: UNIVERSITY INFORMATION

The Academic Registry is responsible for producing Part C of the handbook to provide information and assistance on University policies and support services. Students are advised that the University will make changes to study programmes and progression requirements from time to time in accordance with strategic developments and it is therefore important to ensure that you check the most recent version of the handbook for up-to-date information.

C1. Programme and Course Content

The content of our programmes and courses is reviewed annually to make sure it's up-to-date and relevant. Individual courses are occasionally updated or withdrawn. This is in response to discoveries through our world-leading research; funding changes; professional accreditation requirements; student or employer feedback; outcomes of reviews; and variations in staff or student numbers. In the event of changes the University will consult and inform students in good time and will take reasonable steps to minimise disruption.

C2. Our Values

At Heriot-Watt, we have an established set of values that help up to nurture innovation and leadership and show our commitment to continuous development in all our activities. They are:

- **Belong** to a diverse, inclusive and international community working together across boundaries and cultures
- **Inspire** curiosity to learn and find solutions that transform lives
- **Collaborate** by working in partnership to shape the future whilst taking responsibility for our own actions
- **Celebrate** excellence and take pride in the achievements of our students, staff and alumni

Find out more about the Heriot-Watt values [https://strategy2025.hw.ac.uk/our-new-values/](https://strategy2025.hw.ac.uk/our-new-values/) and what they mean to us.

C3. Student Partnership Agreement

Heriot Watt University and the Heriot Watt University Student Representative Bodies work in partnership to develop a Student Partnership Agreement (SPA) each year. The Agreement identifies the main, agreed priorities for working in partnership each academic year and outlines an associated action plan.

Heriot-Watt University has a long and proud tradition of student engagement in institutional governance and decision-making and the Student Partnership Agreement sets out our ambition to continue to work in partnership across all of our campus locations, with the aim of increasing engagement with the institution, enhancing the student experience and engendering a sense of belonging to the University community.

The Student Partnership Agreement is available [here](https://strategy2025.hw.ac.uk/our-new-values/)
C4. University Regulations

Heriot-Watt has a detailed set of rules that govern how the University operates, these are the University’s Ordinances and Regulations. Ordinances are set by the Court, which is the University’s governing body, outline how the University is governed. University regulations provide the framework for the University’s academic work and the education of our students and they define the policies, procedures and support outlined in the Quick Finder Guide to Heriot-Watt University section of this Handbook.

C5. Your Student Portal

The Student Portal brings together your services and relevant information in one place. Below is a summary of the services available to you via the portal:

- Office 365 suite: through single sign-on, all of your Office 365 services will be accessible through the Portal.
- Library: whether you want to search for books or view your loans & reservations, the Portal allows you to do this on your phone or desktop.
- Vision: your Portal will present you with announcements and tasks related to your course.
- Student Information: all university-level regulations and policies relating to your studies can be found on the Portal.
- Campus and School News: the Portal enables the University to promote events and experiences which will help you develop your skills.
- Personalised: You can hide, add and move tiles on your dashboard.
- AskHWU: You can find everything you need to help you navigate your time at HWU through the new AskHWU search tile. Ask questions of the University and enquire directly with members of staff to get information about ID cards, student finance, confirmation of studies letters, exams, enrolment, careers, wellbeing services and much more.
- Appointments: Book Careers & Wellbeing appointments through your student portal

You can access your student portal here.

C6. Quick Finder Guide to Heriot-Watt University

The following provides a guide to the support, resources, procedures and more which are available to you during your studies. This section is arranged alphabetically under four thematic headings:

- **Learning and Teaching**
  This covers issues related to your academic study.

- **Our Community**
  As a Heriot-Watt student you are part of a community where we value and draw strength from our diversity, and from the range of different experiences which have brought us together. This section helps you to find out about events, activities and opportunities for you to meet new people and get to know other students.

- **Supporting Success**
  This covers issues relating to student life in general and the support resources available to help you.

- **Developing Your Skills**
  It’s not just knowledge of your subject that you acquire as a student, you will develop a range of skills that will not only help you study, but also help in everyday life. You will also develop skills which will help you get a job and develop your career.
Clicking on the links below allows you to find relevant information on the student web pages. Please make sure that you check myHWU the Student Portal, and the University web pages throughout the year for the most up-to-date information.

## Learning & Teaching

### Academic Appeals
An academic appeal is a formal request by a student for the review of a decision made by the University on the student’s progression, assessment or academic award. There are **valid and invalid grounds** for an appeal. Appeals cannot be made on the basis of academic judgment (for example, thinking that your work deserves a higher grade). You are strongly advised to seek advice before starting an appeal, and to try and seek an informal resolution before making a formal appeal.

### Assessment
Assessment is an essential part of learning at university. Make sure you are aware of the guidelines and regulations around University assessment.

### Assessment Feedback
Heriot-Watt University aims to support students in becoming confident, independent learners; feedback is a key part of the student learning experience, as it is designed to help students to learn and improve. It’s also important to know **what to do with the feedback** when you receive it.

### Assessment Results
Once your course results have been released, you will automatically be sent an email (to your Heriot-Watt email address) to inform you that new assessment results are available online to view/download via the Student Self-Service. Guidance is available on the results and the grading system used by the University.

### Changing Your Course
It is advisable to choose optional or elective courses carefully and if you need advice you can always talk to your personal tutor. Changing a course once semester starts must be completed before the end of teaching week 3.

### Changing Your Programme
The University recognises that students may wish to transfer to a different programme of study and will normally allow this provided that a student’s prior study or subject knowledge meets the entry requirements of the new programme. Transferring after year 1 may be difficult without repeating stages of study. If you are considering changing to another Heriot-Watt programme please make sure you discuss this with your personal tutor and see the following advice.

- Think carefully about what you want to study instead
- Access all sources of information about any alternative programme. Find out who the programme contact is, what the entry requirements are and what careers it might lead to. You can find out the programme contact by contacting the School Office. Find out if you would have to repeat a year.
- Talk to programme staff and students who are currently studying the programme.
- Remember, it is not automatic that you will be allowed to transfer to a different programme.
- If you are able to transfer, make sure you complete the correct forms and have the appropriate approval. Your new programme leader can advise you on this.
- You may have to repeat a year on your new programme, e.g. start again at Year 1, in which case you should check with your funding body what financial support will be available if you do this. Repeat funding can sometimes be offered but this will depend on your circumstances.
Examinations & Examination Diets
There are three examination diets (assessment periods): December, Spring and the Resit Diet in the Summer.

Exam Conduct and Identity Checks
Make sure you know what is required and permitted within each of your exams and understand the University exam conduct.

Exam Timetables
Information on the exam timetable and when it will be available. Please note that exam timetables are subject to change so check regularly – we recommend checking the morning of each exam for any adjustments.

Exit Awards
You will receive an award if you successfully complete your programme of study, however, if you leave the University part way through your programme, you may still have met the required criteria for receiving a Certificate of Higher Education, a Diploma of Higher Education or an Ordinary/Bachelors Degree as an exit award. (see also intermediate awards).

External Examiners Information
External Examiners ensure that students are judged fairly according to academic standards. In addition, they ensure that the processes for assessment, examination and determination of awards are sound and fairly operated.

Learning and Teaching Matters
Across our campuses and global community of students, we are promoting learning and teaching with a series of key messages to provide you with advice and information at crucial points during your Heriot-Watt experience.

Periods of Study
The University Regulations explain the maximum time allowed to complete your programme of study.

Plagiarism
Plagiarism is the act of taking the ideas, writings or inventions of another person and using these as if they were your own, whether intentionally or not. Here you can find out more about plagiarism, how the University responds to it and guidance on how to avoid plagiarism in your academic work. The Library also provides workshops and support on citing and referencing to avoid plagiarism.

Reassessment
If you fail an assessment during the first or second semester of an academic year, then you will have to sit a reassessment for that course before being able to progress. This page contains information on reassessment procedures, how to register and pay for reassessments on your campus, reassessment diet dates, and information about additional reassessment opportunities.

Requirements for Awards
Refer to the regulation(s) that are appropriate for your level of study. These regulations explain the number of credits required to receive an award from the University.

Recognition of Prior Learning & Credit Transfer
If you have previously been in higher education, have passed courses or have academically relevant professional experience, then this could count as credit towards your Heriot-Watt degree. In the linked page, scroll down to ‘Recognition of Prior Learning & Credit Transfer to view the policy and procedures relating to this, as well as other information.
Submission of Coursework Policy
You will have a set submission deadline for each piece of coursework. This policy explains how the deadline works.

Teaching Timetables
Use the link above to find out when and where your lectures, tutorials, or labs will be taking place on your campus.

Use of Calculators in Examinations
Refer to the link above to find out when you can use a calculator in an examination, and what kind of calculators are permitted.

Use of Dictionaries in Examinations
Dictionaries are generally not permitted in exams. However, the following link details the exceptions and circumstances when a dictionary may be permitted.

Our Community

Alumni
Information on the opportunities available to students after they graduate from Heriot-Watt. These include membership of The Watt Club (Heriot-Watt’s alumni association), how to network and connect with other alumni, and how alumni can give back to the University after they have left.

Armed Forces Reservists
The University has signed up to the Armed Forces Covenant and we are committed to ensuring that current and former armed forces personal and their families are treated fairly. We will ensure that students who are reservists are not disadvantaged in their studies by undertaking compulsory training and service, and this includes the consideration of Mitigating Circumstances in assessments. You can discuss any issues relating to your service with your personal tutor.

Accommodation
Information about student accommodation at each of our campuses
Accommodation (Dubai Campus)
Accommodation (Edinburgh Campus)
Accommodation (Malaysia Campus)
Accommodation (Scottish Borders Campus)
Accommodation (Orkney Campus)

Faith and Belief
Heriot-Watt University respects religious and cultural diversity and aims to support individuals in their religious and cultural observance.
Faith and Belief: Edinburgh Campus
Faith and Belief: Scottish Borders Campus
Faith and Belief: Orkney Campus
Faith and Belief: Dubai Campus
Faith and Belief: Malaysia Campus

Residence Life
Residence Life (Res Life) provide help and support for students living in University accommodation. This can be practical help and information, help with the transition to living in halls of residence, signposting to other sources of support and providing a calendar of social events.
Sport and Exercise
Opportunities for a range of sport and exercise activities are available at all our campuses. From recreational fun to competition, there’s a place in the WattFamily for everyone regardless of sporting ability or experience. The Edinburgh campus is also home to Oriam Scotland’s Sports Performance Centre.

Sport and Exercise: Edinburgh Campus
Sport and Exercise: Scottish Borders Campus
Sport and Exercise: Orkney Campus
Sport and Exercise: Dubai Campus
Sport and Exercise: Malaysia Campus

Student Representation
All students have representative bodies for their campus who will also oversee clubs and societies and organise events for students.

Heriot-Watt University Student Union (Edinburgh, Orkney and Scottish Borders Campuses)
All Heriot-Watt students at Scottish campuses are a member of the Student Union. In addition to the wide range of societies, the Student Union offers volunteering opportunities for students to get involved in and make friends and connections during their time at university. The Union regularly hold events and host campaigns for good causes. The Student Union can also provide advice and support for all Heriot-Watt students via the Advice Hub.

Heriot-Watt University Dubai Student Council is the primary representative body for all students at Dubai campus. Further details can be found on the Student Council’s Facebook page.

Heriot-Watt University Malaysia Student Association represents students at Malaysia campus, manages clubs, implements welfare projects and organises events for students.

Supporting Success

Amendment to Enrolment
Amendments can be made to a student’s enrolment at any point during their studies. This can include Temporary Suspension of Studies, extension of study period or amendment to study level or method.

Assistive Technology
We have a variety of assistive technology available at Heriot-Watt University. Our Technology Assistant is here to help you with the enabling technology that we have and can assist you with any queries or support needs.

Assistive Technology at Edinburgh Campus
Assistive Technology at Scottish Borders Campus
Assistive Technology at Orkney Campus
Assistive Technology at Dubai Campus
Assistive Technology at Malaysia Campus

Attendance and Absence
It is extremely important that you keep the University informed if you are unable to attend classes. Absence may affect your academic progress, so you should discuss with your personal tutor whether you may need to temporarily suspend your studies or apply for Mitigating Circumstances. If you are unable to attend an exam or complete an assessment due to an unforeseen absence beyond your control, such as significant illness, you will need to make an application for consideration of Mitigating Circumstances in writing with supporting evidence.
Big White Wall
Big White Wall is an online support resource 24 hours a day every day which you can sign up to with your university email address then choose an anonymous username for your time on Big White Wall. You can use Big White Wall for help with a wide range of mental health and wellbeing issues.

Care Experienced Students
We recognise that students with care experience are under-represented in higher education and are committed to offering support for you to study at Heriot-Watt. We can provide access to the advice, guidance, financial support and accommodation required to help you succeed at university. We offer a named point of contact and support within the University,

Caring Responsibilities
Heriot-Watt University is committed to supporting students who are carers. A carer is anyone who cares, unpaid, for a friend or family member who due to illness, disability, a mental health problem or an addiction cannot cope without their support.

Change of Address
For legal, academic and administrative purposes it is very important that the information the University holds about you is correct and up to date, including your address details. You can check and amend your personal information by logging in to Student Self Service.

Childcare
There is a nursery based at Edinburgh campus run by an independent company called Pinocchio’s. At Scottish Borders there is no on-campus nursery, however Osito Nursery is close to the campus. You are advised to ensure that any nursery or childminder you use is registered with the Care Commission. Information about childcare provision in your area is available from the Scottish Family Information Service. You may be eligible for help with childcare fees through the Childcare Fund. Students wishing to apply must be home students who are fulltime, undergraduate and eligible for student loan support. Students must have applied for the maximum student loan available.

Complaints
If for any reason you are unhappy with action taken (or not taken) by the University, or by the standard of service you have received, you may be able to make a formal complaint using the University's Complaints Procedure.

Counselling
Being a student can be a very positive experience but there are also many challenges to deal with such as being away from home, being in a new country, exam pressures and building new relationships with friends. If you are worried about any issue or are thinking about dropping out of University we can offer you counselling, support, and information to help you deal with the difficulties you may face. It may be that you only need one appointment but can attend more if you wish.

Data Protection
Information about how the University uses and protects data.

Disability Support
The Disability Service can provide support and advice for students with a range of disabilities. It is important that you inform us if you have a disability so the appropriate support can be arranged and you may be eligible for additional funding from the Disabled Students Allowance.
Discipline
The University can take action against any student if they have committed an academic offence (such as plagiarism, collusion or cheating in an exam) or a non-academic offence such as improper use of, or damage to, university property, or unacceptable behaviour.

Discretionary Credit
A student who has not achieved the minimum number of credit points necessary to qualify for consideration of an award or the minimum number of credit points to progress from one stage to another may be awarded the requisite credit points at the discretion of the Award Board or Progression Board, as appropriate.

Effective Learning Service
Our global team of Effective Learning Advisers can provide advice and guidance on study skills for University work e.g. academic writing, study strategies, managing your time and effective group working.

Email
Make sure you keep checking your Heriot-Watt email at least every day and use it if you need to contact the University. Sometimes mail from personal e-mail addresses is blocked by the University’s IT systems, so use your Heriot-Watt e-mail to be sure your message gets through to us. Essential messages and information will also be available via myHWU the Student Portal.

Enrolment
Enrolment is the formal process of becoming a student of the University, agreeing to abide by its rules and accepting any liability for fees or other costs associated with your studies. All new and continuing students must be enrolled while studying at Heriot Watt University. The enrolment process must be completed online at the start of each new academic year.

Equality and Diversity
As well as meeting our legal requirements we make sure that people across the University Community understand how they contribute to a Culture of Inclusion for All. This holistic approach helps us maintain an open and accessible working, living and learning environment where all are supported to reach their full potential.

Erasmus+
Erasmus+ enables you to study or work in Europe as part of your degree programme, usually for a full academic year. At Heriot Watt students have the opportunity to study at a wide range of institutions in Europe.

Estranged Students
An estranged student is "someone who no longer has the support of their family due to a breakdown in their relationship which has led to ceased contact. This might mean biological or adoptive parents or wider family members who have been responsible for supporting a student in the past". We recognise that estrangement causes particular challenges to students and the University is able to provide a range of support. If this applies to you, please get in contact.

Exchanges
An exchange can be arranged with an institution abroad. This can be arranged with your school Exchange Coordinator but it is the responsibility of the student to complete the application for that institution.

Failing a course
Failing a course may be a setback, but it is not necessarily a disastrous one. Students who have failed can go on to pass resits and still graduate with a good degree. If you fail a course it is important you discuss this with your personal tutor in the first instance. Your personal tutor will be able to offer advice on how to obtain detailed feedback and suggest sources of support.
Go Global
Go Global is the University’s inter-campus transfer opportunity and offers students the opportunity to study at a different Heriot-Watt campus.

Graduate Attributes
Through your experience at Heriot-Watt University you will develop the skills and qualities of the four graduate attributes: specialist, creative, professional and global.

Graduation
All the information you need to apply for and attend your graduation ceremony.

Guide to Student Life
This A to Z guide, also available via the Student Portal, is another way you can access essential information on a range of issues you may encounter.

Harassment and Bullying
Heriot-Watt University is committed to a working, learning and living environment that is free of discrimination and intimidation. If you feel that you are being bullied or harassed, in person or online, please talk to your personal tutor, or to Student Wellbeing.

Health and Wellbeing
During your time at University it is important to look after yourself and use the resources available to help you with this, including Wellbeing Services, and medical and dental services.

Library Essentials
Library essentials covers how to navigate the library service across campuses at the University. If you need to borrow a book or book out a study space this can be accessed from the library essentials webpage.

Library Resources for your Subject
There is an Academic Support & Liaison Librarians supporting your subject or School. Together with Library staff at Malaysia and Dubai campuses they can provide advice and guidance on library resources and developing your information skills. See also the online subject guides for information about books, journals and online resources for each subject area.

Managing Your Money
As a student you will find there is a lot to think about financially. For some of you, studying at university will be the first time you have had to manage your money and keep your expenditure within a fixed budget. Advice and support on money matters is available at all Heriot-Watt campuses.

Maternity and Paternity
The University has a set of published guidelines to ensure that students who become pregnant during their studies know where to seek advice and support, including on matters such as returning to study following a period of maternity leave and on requests for shared leave or paternity leave.

Mental Health
If you experience a mental health difficulty while at the University, or have a pre-existing mental health condition, you can discuss any issues and concerns with a professional counsellor or Student Advisor.

Mitigating Circumstances
There are circumstances which, through no fault of your own, may have affected your performance in an assessment (exams or other assessment), meaning that the assessment has not accurately measured your ability. These circumstances are described as ‘mitigating
circumstances’. You can submit an application to have mitigating circumstances taken into account.

**Next Steps: Post result help**
Next Steps is a simple guide that can help you after you have received your course assessment results. The guide has information about importance of obtaining feedback from your assessments, and how to reflect and act on feedback to ensure you are more successful in your studies.

**People Finder**
Find a key person on campus by using People Finder

**Sexual Misconduct**
The University is committed to providing a safe environment that allows you to work, study, and fulfil your potential without fear of sexual misconduct and has a policy to combat sexual misconduct.

**Software**
You can access a range of IT software provided by the University to help in your studies.

**Student Success Advisors**
Nobody knows the challenges of being a Heriot-Watt student better than those who have been through it all themselves. With the benefit of recent experience and successful study at Heriot-Watt, the Student Success Advisors will be able to offer advice to students based on their own experiences. They will also have an overview of the other support resources available at Heriot-Watt and point you in the right direction if you need it.

**Student Service Centre**
The Student Service Centre offers help and support relating to matters on enrolment, examinations, paying tuition fees, graduation, as well as advice for students holding a visa.
Dubai Campus: please contact dubaistudentservices@hw.ac.uk
**Edinburgh Campus**
**Malaysia Campus**

**Student Fees, Funding and Additional Charges**
The University can give you advice about paying your tuition fees as well as information on scholarships and bursaries, and other means of financial support.

**Student Policies and Guidance**
Our list of student policies can give you information on University regulations and guidance relating to issues including attendance, mitigating circumstances, mental health, and programme transfer.

**Student Surveys**
Feedback from students is extremely important as it allows the University to further improve and enhance what it offers to students. Surveys give students the opportunity to feedback their thoughts and opinions to the University.

**Temporary Suspension of Studies**
In certain situations, it may be in a student’s best interests for them to suspend their studies temporarily to enable them to deal with particular issues and return at an agreed date. A Temporary Suspension of Studies (TSS) can be applied for and approved on the basis of genuine medical, personal, financial reasons or military service.

**Thinking of Leaving**
If you are thinking about leaving university for whatever reason please talk through your decision with a member of staff at the university. Many students think about leaving university at some stage during their studies. If anything is bothering you or you are
thinking about leaving, you can come along to a drop in to speak to a member of support staff to explore and understand all of your options.

Visa Advice
Advice on visa requirements for studying at Heriot-Watt is available at all our campuses.

Visa Advice: UK Campuses
Visa Advice: Dubai Campus
Visa Advice: Malaysia Campus

Virtual Learning Environment (Vision)
Vision is Heriot-Watt’s Virtual Learning Environment (VLE) and is a vital learning and communication tool for you and your lecturers, so make sure you log in and check Vision every day. A Student Guide to VISION can be found here.

Developing Your Skills

Careers
Careers advice and guidance is available to all students and recent graduates to help:
- Develop your employability skills
- Identify your potential career options
- Help you to find work experience/part time work
- Market yourself to employers

Careers: UK Campuses
Careers: Dubai Campus, contact Benita Maben, Careers Advisor, B.Maben@hw.ac.uk
Careers: Malaysia Campus, contact MYCareers@hw.ac.uk

Career Mentoring
Career Mentoring can connect a student with a professional working in a student’s area of interest. The programme gives students an opportunity to gain an insight into what it is like working in a certain field. A mentor will also be able to support a student with their long-term career planning. This programme is mostly aimed at students in their penultimate year, however all students are welcome to apply.

Enhanced Transcript
An Enhanced Transcript is a formal University document which will include not only details of your award and grades, but also a range of academic and extra-curricular activities undertaken whilst at University. The Transcript is designed to help you to maximise your employability as it records your University achievements in one document which you can share with prospective employers and postgraduate recruiters.

LinkedIn Learning
As a Heriot-Watt student, you have full, free access to LinkedIn Learning. The platform hosts over 12,000 digital courses on business, creative and technology topics. These courses are broken into bitesize sections, making it easy to focus on developing the skills you need.

Maths Gym
The Maths Gym is a cross-campus initiative aimed at supporting all HW students, from any subject, to strengthen their mathematical or statistical skills and gain confidence in applying these skills. We provide support through a variety of activities including:
- drop-in sessions
- one-to-one or small group appointments
• workshops.
Whether you want to brush up on basic skills or need help to understand new material from your course, the Maths Gym is there to help you.

Skills Development
Studying at university gives you the opportunity to learn new skills or build on existing skills you already have. Information Services provide many workshops and resources to help you gain or develop the skills you will need to have a successful time at university.

Study Spaces
Heriot-Watt provide a large number of modern and contemporary study spaces for both individuals and groups in convenient locations. Some of these spaces are open late, and offer IT access as well as food and drink.

Volunteering
Volunteering offers you the opportunity to develop your skills and experience while helping your fellow students, your community or a charitable organisation. There are numerous opportunities for volunteering within and outside the University. The Careers service also provide advice on volunteering. Your experience as a volunteer can be logged and evidenced, and help enhance your employability.
APPENDIX A: STUDENT GUIDE TO PLAGIARISM

Plagiarism is intellectual theft and is a major offence which the University takes seriously in all cases. Students must therefore avoid committing acts of plagiarism by following these guidelines and speaking to academic staff if they are uncertain about what plagiarism means. Those who are found to have plagiarised will be subject to the University’s disciplinary procedures, which may result in penalties ranging from the deduction of credits and modules already achieved by students to compulsory termination of studies. Students are advised to refer to Regulation 50 at http://www.hw.ac.uk/ordinances/regulations.pdf and to the Guidelines for Staff and Students on Discipline at http://www.hw.ac.uk/students/studies/examinations/plagiarism.htm for further details of how the University deals with all acts of plagiarism.

Introduction

1.1. This guide is intended to provide students at Heriot-Watt University with a clear definition of plagiarism and examples of how to avoid it.

1.2. The guide may also be of use to members of staff who seek to advise students on the various issues outlined below.

Definition

1.3. Plagiarism involves the act of taking the ideas, writings or inventions of another person and using these as if they were one’s own, whether intentionally or not. Plagiarism occurs where there is no acknowledgement that the writings or ideas belong to or have come from another source.

1.4. Most academic writing involves building on the work of others and this is acceptable as long as their contribution is identified and fully acknowledged. It is not wrong in itself to use the ideas, writings or inventions of others, provided that whoever does so is honest about acknowledging the source of that information. Many aspects of plagiarism can be simply avoided through proper referencing. However, plagiarism extends beyond minor errors in referencing the work of others and also includes the reproduction of an entire paper or passage of work or of the ideas and views contained in such pieces of work.

Good Practice

1.5. Academic work is almost always drawn from other published information supplemented by the writer’s own ideas, results or findings. Thus drawing from other work is entirely acceptable, but it is unacceptable not to acknowledge such work. Conventions or methods for making acknowledgements can vary slightly from subject to subject, and students should seek the advice of staff in their own School about ways of doing this. Generally, referencing systems fall into the Harvard (where the text citation is by author and date) and numeric (where the text citation is by using a number). Both systems refer readers to a list at the end of the piece of work where sufficient information is provided to enable the reader to locate the source for themselves.

1.6. When a student undertakes a piece of work that involves drawing on the writings or ideas of others, they must ensure that they acknowledge each contribution in the following manner:

The author acknowledges the following sources of information used in preparing this guide to Plagiarism:

• **Citations:** when a direct quotation, a figure, a general idea or other piece of information is taken from another source, the work and its source must be acknowledged and identified where it occurs in the text;

• **Quotations:** inverted commas must always be used to identify direct quotations, and the source of the quotation must be cited;

• **References:** the full details of all references and other sources must be listed in a section at the end of any piece of work, such as an essay, together with the full publication details. This is normally referred to as a “List of References” and it must include details of any and all sources of information that the student has referred to in producing their work. (This is slightly different to a Bibliography, which may also contain references and sources which, although not directly referred to in your work, you consulted in producing your work).

1.7. Students may wish to refer to the following examples which illustrate the basic principles of plagiarism and how students might avoid it in their work by using some very simple techniques:

1.7.1. **Example 1: A Clear Case of Plagiarism**

Examine the following example in which a student has simply inserted a passage of text (*in italics*) into their work directly from a book they have read:

> University and college managers should consider implementing strategic frameworks if they wish to embrace good management standards. *One of the key problems in setting a strategic framework for a college or university is that the individual institution has both positive and negative constraints placed upon its freedom of action.* Managers are employed to resolve these issues effectively.

This is an example of bad practice as the student makes no attempt to distinguish the passage they have inserted from their own work. Thus, this constitutes a clear case of plagiarism. Simply changing a few key words in such a passage of text (e.g. replace ‘problems’ with ‘difficulties’) does not make it the student’s work and it is still considered to be an act of plagiarism.
1.7.2. Common Mistakes

Students may also find the following examples of common plagiarism mistakes made by other students useful when reflecting on their own work:

- “I thought it would be okay as long as I included the source in my bibliography” [without indicating a quotation had been used in the text]
- “I made lots of notes for my essay and couldn’t remember where I found the information”
- “I thought it would be okay to use material that I had purchased online”
- “I thought it would be okay to copy the text if I changed some of the words into my own”
- “I thought that plagiarism only applied to essays, I didn’t know that it also applies to oral presentations/group projects etc”
- “I thought it would be okay just to use my tutor’s notes”
- “I didn’t think that you needed to reference material found on the web”
- “I left it too late and just didn’t have time to reference my sources”

None of the above are acceptable reasons for failing to acknowledge the use of others’ work and thereby constitute plagiarism.

1.8. What follows are examples of the measures that students should employ in order to correctly cite the words, thought or ideas of others that have influenced their work:

1.8.1. Example 2: Quoting the work of others

If a student wishes to cite a passage of text in order to support their own work, the correct way of doing so is to use quotation marks (e.g. “”) to show that the passage is someone else’s work, as follows:

“One of the key problems in setting a strategic framework for a college or university is that the individual institution has both positive and negative constraints placed upon its freedom of action”.

1.8.2. Example 3: Referencing the work of others

In addition to using quotation marks as above, students must also use a text citation. If the work being cited is a book, page numbers would also normally be required. Thus, using the Harvard system for a book:

“One of the key problems in setting a strategic framework for a college or university is that the individual institution has both positive and negative constraints placed upon its freedom of action” (Jones, 2001, p121).

The same reference could also be made to a book using the numeric system:

“One of the key problems in setting a strategic framework for a college or university is that the individual institution has both positive and negative constraints placed upon its freedom of action” (Ref.1, p121).

More often, a piece of work will have multiple references and this serves to show an examiner that the student is drawing from a number of sources. For example, articles by Brown and by Smith may be cited as follows in the Harvard system:

“It has been asserted that Higher Education in the United Kingdom continued to be poorly funded during the 1980’s [Brown, 1991], whereas more modern writers...”

---

[Smith, 2002] argue that the HE sector actually received, in real terms, more funding during this period than the thirty year period immediately preceding it”.

or as follows using the numeric system:

“It has been asserted that Higher Education in the United Kingdom continued to be poorly funded during the 1980’s [Ref 1], whereas more modern writers [Ref 2] argue that the HE sector actually received, in real terms, more funding during this period than the thirty year period immediately preceding it”.

1.8.3. Example 4: Use of reference lists

Whichever system is used, a list must be included at the end, which allows the reader to locate the works cited for themselves. The Internet is also an increasingly popular source of information for students and details must again be provided. You should adhere to the following guidelines in all cases where you reference the work of others:

If the source is a book, the required information is as follows:
- Author’s name(s)
- Year of Publication
- Title of Book
- Place of Publication
- Publishers Name
- All Page Numbers cited
- Edition (if more than one, e.g. 3rd edition, 2001)

If the source is an article in a journal or periodical, the required information is as follows:
- Author’s name(s)
- Year of Publication
- Title of Journal
- Volume and part number
- Page numbers for the article

If the source is from the Internet, the required information is as follows:
- Author’s or Institution’s name (“Anon”, if not known)
- Title of Document
- Date last accessed by student
- Full URL (e.g.http://www.lib.utk.edu/instruction/plagiarism/)
- Affiliation of author, if given (e.g. University of Tennessee)

The way in which the information is organised can vary, and there are some types of work (for example edited volumes and conference proceedings) where the required information is slightly different. Essentially, though, it is your responsibility to make it clear where you are citing references within your work and what the source is within your reference list. **Failure to do so is an act of plagiarism.**

1.9. Students are encouraged to use a style of acknowledgement that is appropriate to their own academic discipline and should seek advice from their mentor, course leader or other appropriate member of academic staff. There are also many reference sources available in the University Library which will provide useful guidance on referencing styles.

**Managing Plagiarism**

1.10. Students, supervisors and institutions have a joint role in ensuring that plagiarism is avoided in all areas of academic activity. Each role is outlined below as follows:

*How you can ensure that you avoid plagiarism in your work:*
- Take responsibility for applying the above principles of best practice and integrity within all of your work
• Be aware that your written work will be checked for plagiarism and that all incidents of plagiarism, if found, are likely to result in severe disciplinary action by the University. The standard penalty is to annul all assessments taken in the same diet of examinations (for details please refer to Regulation 50 at https://www.hw.ac.uk/documents/HWU-Regulations-WEB.pdf and to the Guidelines for Staff and Students on Discipline at http://www.hw.ac.uk/students/studies/record/discipline.htm).

**How your School will help you to avoid plagiarism:**

• Highlight written guidance on how you can avoid plagiarism and provide you with supplementary, verbal guidance wherever appropriate

• Regularly check student work to ensure that plagiarism has not taken place. This may involve both manual and electronic methods of checking. A number of plagiarism detection packages are in use at Heriot-Watt University, one example being the Joint Information Systems Committee (JISC) “TurnitIn” plagiarism detection software.

• Alert you to the procedures that will apply should you be found to have committed or be suspected of having committed an act of plagiarism and explain how further action will be taken in accordance with University policy and procedures.

**How the University will endeavour to reduce student plagiarism:**

• Provide clear written guidance on what constitutes plagiarism and how to avoid it directly to your School and to you

• Alert you and staff in your School to the penalties employed when dealing with plagiarism cases

• Take steps to ensure that a consistent approach is applied when dealing with cases of suspected plagiarism across the institution

• Take the issue of academic dishonesty very seriously and routinely investigate cases where students have plagiarised and apply appropriate penalties in all proven cases.
